## What a Difference a Few Years Has Made!

It is with gratitude that I acknowledge the growing participation of individuals supporting the **Buy American Made Campaign** and I'm sure you agree, "**What A Difference A Few Years Has Made**". Americans have seen that years of outsourcing manufacturing jobs and dismantling well-established industries has resulted in the loss of jobs for tens-of-millions of people in states across America. However, because our supporters are changing their shopping habits and seeking out American made products, industries that were lost for several years are slowly returning to America's shores or are being recreated by new businesses in the U.S.A.

I am a firm believer that **we cannot continue to be a nation of consumers without also being a nation of manufacturers**. We have the ability to **change our own future by using our purchasing power wisely** and supporting products with a made in the U.S.A. label. There are some positive signs with businesses expanding in America, but **we can NOT claim success until 50% or more of the clothing we wear, the cell phones and computers we use, the televisions we watch and all other products sold in the U.S.A. are once again produced with made in the U.S.A. labels**. Help us make job growth in America possible by

purchasing items made and assembled in America.

**Our goal is not to end imports, but to restore a growing number of American made products so American made regains its place in the American market and more Americans are employed.**  
Thanks for your help!

In recent weeks I stated that **American Workers Radio** will be promoting the Month of **November** as "**American Made Month**". Your participation is very important. For a brief schedule of national efforts planned visit: [AmericanMadeMonth.com](#).
