Elected, Business, Media & Workers Must Unite!

Over the years **elected and business officials, America's workers and the media should have been working more closely together** and taking action to **stop the loss of JOBS in the U.S.A.** Instead the record shows that discussions regarding **JOBS in America** by all leading forces was minimal.

TO OUTSOURCING

Efforts that were discussed at business conferences, during campaign speeches and on news reports did not unite all parties, and there were **few leaders** that **championed the cause of American workers and America's future.** As with anything, we now see that **actions speak louder than words.** We can all see that **during the last 30 years, America's leaders just talked while thousands of businesses outsourced millions of jobs around the world.** Due to their lack of action, **millions of Americans need jobs, but many of the companies that could employ them have are now located overseas. Industrial buildings, offices and distribution centers are no longer needed** as they were because products are shipped in from foreign countries and placed on store shelves **for you to purchase.**

American Workers Radio, in conjunction with AmericanWorkersNeedYou.com, will **work toward changing the way our future is headed.** We will place employment issues on the table and on the record. **Broadcasts will be directed to the grass roots level of America's employment needs** and be directed to every level of private sector business that could **help expand and restore JOBS in the U.S.A.** Listeners and leaders will be able to call in during the broadcasts to **discuss issues regarding expanding jobs and highlight products made in the U.S.A.**

The AmericanWorkersRadio.com project is moving forward and on schedule. In just a few weeks you will be able to access AmericanWorkersRadio.com to discuss mutual needs and concerns. **For 30 years we have heard excuses as to why jobs left America.** Now we want to **discuss what will help restore jobs** so that America's present day and future workers can support themselves and their families. All of us working together will get the message across about expanding **jobs in the U.S.A. FIRST** and what we as America's consumers can do to help.
