We Have to be the Main Leaders of Change!

After watching the budget negotiations in Washington, **I see that America's national leaders want to continue to spend money that America's Treasury does not have and borrow money to support a growing number of agendas most of America's taxpayers don't agree with.**

Unfortunately, **most of America's national elected leaders have very little experience outside of politics so they don't understand the day-to-day issues facing America's taxpayers and businesses.** Most national leaders were not in a business so **they don't understand what it takes to pay expenses, taxes, maintain a payroll and make a profit. They don't understand how their lack of leadership is affecting America's working age people who want and need JOBS.**

Rather than working with private sector businesses to expand JOBS, national leaders look for ways to tax the already over-taxed people of America and ignore the fact that America's problems are caused by the need to restore TENS-OF-MILLIONS of full time and part time JOBS so Americans can earn a living.

The title of today's commentary is "**We Have To Be The Main Leaders Of Change!**" It is a complement to supporters of the **Buy American Made Campaign** who are supporting American workers and the businesses that manufacture and assemble items in the U.S.A. **As more people are looking at labels carefully and speaking up where they shop about the glut of foreign made items in our stores, it is having a major impact on business owners and investors who see Americans spending more of their dollars for products made in the U.S.A.**

As our message continues to grow, I also see that **more businesses are promoting the fact that their products are made in the U.S.A.** This is what America's national leaders should be supporting, but since they are not, **I encourage you to continue to support our efforts and spread the word.**

A supporter of American workers has prepared a special **YouTube presentation, "Million American Jobs Project"** which is linked on the front page of AmericanWorkersRadio.com.

As you know, **the First Weekend of EVERY MONTH is [National Small Business Weekend](#).** I encourage you to shop at your local businesses throughout the year and help us promote this effort because **local small businesses employ more than 60 million Americans.**

This is Michael Blichasz. Tune in to **American Workers Radio** Wednesday's from 11 A.M. to 12 Noon on 860 AM broadcasting in the Philadelphia area. Listen live or to rebroadcasts from: AmericanWorkersRadio.com
