Wherever You Shop, Think American Made First!

The **HOLIDAY SEASON** is now in full swing, and I urge you to take an extra minute or two to look at the labels on the items you're looking to purchase. America's businesses who proudly list products that are made and assembled in the U.S.A. are depending on your business and are grateful for efforts like the **Buy American Made Campaign** which promote the restoration of a reasonable balance between American and foreign made products sold in the United States.

America's businesses have seen the growing commitment of the American people and are grateful for your business so they can **keep American workers employed** from the point of production to the point of sale.

As we continue to promote **November as American Made Month**, I encourage you to carefully consider the gifts you plan to purchase for family and friends to see how many levels of American workers are employed as a result of your purchase. Here are a few additional ways you can help American workers:

1. **Thursday, November 28th, is Thanksgiving Day, a time to give thanks and discuss efforts like the Buy American Made Campaign with family and friends.**
2. **Friday, November 29th, Black Friday, is another opportunity to seek out items made in the U.S.A.**
3. **Saturday, November 30th is Small Business Saturday, a national event to support America's small businesses. Look for and ask for American made products so business personnel hear directly from shoppers.**

During the last days of [American Made Month](#), consider what can be done to support manufacturing, assembling, promoting, distributing and selling American Made products. **Together our supporters have been making a real difference** to help American workers and the businesses that employ them. Together we are **changing the way business is done in America simply by looking for the products we need that are made in the United States of America**. This is not always been easy to accomplish, but things are getting better. Thanks for spreading the word.
