During the Holiday Shopping Season - Think American Made!

In recent years, more JOBS have been restored in America. As was reported on December 1st, **in November, 2019, over 266 thousand new jobs were created in the United States.** The new employment opportunities reflect jobs in technology, manufacturing, product distribution and service-related industries just to name a few. **In the last few years over 7 million new jobs were created in the United States and continued job growth depends heavily on America's consumers spending more of their hard-earned dollars on American made products and services.**

**THE HOLIDAY SHOPPING
SEASON IS HERE.
SUPPORT AMERICAN WORKERS!**

As you continue your holiday shopping, look for, ask for and support American made items **FIRST**, keeping in mind that every time you purchase something made in the United States, you are helping to circulate more American dollars in America so more

jobs for Americans continue to be created.

I encourage you to **make this Holiday season a "Made in America" Holiday** event as you look for every way possible to support American workers and the businesses that employ them.

For more information visit our Internet site at: AmericanWorkersRadio.com, where several links promoting our efforts are posted. Kindly share our Internet sites with your family and friends so even more people get involved and even more jobs for Americans are create.

Thanks for your participation.
