Together We Are Moving Forward!

As we continue our efforts to promote "**2014 as the Year of American Made**", Americans are more united behind efforts to promote jobs and job skills. In today's world **it is very important for every working age American to assess their own employment abilities** and be ready and able to fill job opportunities as they become available.

Americans clearly see how **vital jobs skills** are to private sector businesses who are **now competing with suppliers from around the world**. In the process of working together, we also found that **when one sector of America's economy does poorly, it hurts many levels of job opportunities**. In recent years, the loss of manufacturing, changes in the financial and housing markets and the loss of local community businesses all affected the well-being of America's private sector employment base and tens-of-millions of Americans continue to feel the pinch.

As discussed on our radio programs, **the best part of the American people supporting American made FIRST is that you don't need someone else to do it for you, you make the choices yourself**.

In making the choice to support American made, **people see for themselves how many industries America has lost and how important it is to circulate more of our dollars in support of businesses manufacturing, selling and servicing products made in the U.S.A.**

We can't hide from the facts, **outsourcing hurt small, medium and large businesses across America who now compete with low cost imports which benefit foreign workers, importers, merchandisers and major retailers, but hurt American workers**. Help our efforts to **restore America's industries by going out of your way to look for, ask for and buy American made products so more Americans will be employed and be able to support themselves**.

This is Michael Blichasz, every Wednesday from 11 A.M. to 12 noon, tune in to **American Workers Radio** on 860 AM broadcasting in Philadelphia and the TriState area. You can also listen to live broadcasts or to rebroadcasts from the links on AmericanWorkersRadio.com.
