Resolutions That Benefit Everyone!

During the first days of the New Year we have all heard people making some type of New Year's Resolutions. Today, I suggest that we all promote a few resolutions that our supporters can keep. They are **resolutions that benefit American workers, America's families, and America's economy.** Kindly spread the word:

1. Every time you're out shopping, take the time to look closely at the labels to see exactly where the items are made. Consider if your purchase is helping American workers from the point of production to the point of sale, or are American workers simply serving as store personnel and cashiers. If you can't find competitive American made items in one store, shop around to see if a selection of American made items is available elsewhere.
2. Take a moment to ask the store personnel to direct you to the items they know are made in America and let them know you support products with American made labels. Asking store personnel for assistance and letting them know you support American made products has been a very effective way to spread the word about the Buy American Made Campaign.
3. Shop as often as possible at local businesses in your community that feature a reasonable selection of American made items because you know first-hand they are keeping people employed and your community vibrant.
4. Contact your family and friends and ask them to support the mission of the Buy American Made Campaign. Restoring no less than 50% of everything sold in America's stores being made in America is a mission that benefits all Americans.

The success of everything our campaign is seeking to accomplish depends on America's consumers. So that your family and friends can read and hear about our campaign, invite them to visit:

AmericanWorkersRadio.com.

Every Wednesday from 11 A.M. to 12 noon, tune in to **American Workers Radio on 860 AM serving Philadelphia and the Tri-State area.** You can also listen live or to rebroadcasts from anywhere in the world from the easy access links located on the front page of: AmericanWorkersRadio.com.
