**It is Made Possible by America's Consumers!**

As we continue to **promote 2014 as the Year of American Made**, it is evident that our leaders in Washington, DC, Big Banks, Wall Street and the businesses that left America get their power and profits every time America's consumers make a purchase. Washington collects taxes, big banks and Wall Street investors receive a return on investments, and the businesses that left America see that offering imported items without a balance of items made in the U.S.A. is accepted by **America's consumers.**

Today **80% of imported items represent products invented in the U.S.A. are now made overseas.** The supporters of the **Buy American Made Campaign** are taking action through their purchasing power with the goal of restore a **50/50 balance between imported and American made products.** Our supporters also see that America's employment problems are as a result of national elected leaders not working with private sector industries to insure job growth for the Americans was always their first priority. As a result of poor leaderships, **America needs over 40 million full and part-time jobs and we see that national leaders are not doing the job that we are paying them to do.**

**MADE IN THE USA**

**On February 22, 2014, the U.S. Pentagon ordered that American flags must now be 100% made in America.** I would like to add to this mandate. I feel that all items purchased by government and paid for by the taxpayers should be made in the U.S.A. **I encourage you to contact your local, state and federal elected officials to approve legislation to have all items paid for by taxpayers, be made in America.** This includes items for schools, roads and bridges and thousands more.

[Contact your elected officials here.](#) Your participation is very important.

This is Michael Blichasz. I welcome your comments and suggestions. Every Wednesday from 11 A.M. to 12 noon tune in to American Workers Radio on 860 AM broadcasting in Philadelphia and the tri-state area. You can listen to live broadcasts or to rebroadcasts from the links on the front page of: [AmericanWorkersRadio.com.](http://AmericanWorkersRadio.com)
