Incentives

Just as you are urged to support the products made by companies manufacturing in America, **I have been urging America's national leaders to provide tax incentives to businesses manufacturing in the U.S.A.** After receiving feedback from my commentary "[The Blichasz Plan](#)", I see that **more Americans are joining our cause** and together are urging national leaders to eliminate all tax loopholes for corporations manufacturing overseas and using America as their main point of sales. **For too many years and without concern for American workers and the well-being of America's economy, companies moved overseas.** If those companies move only 50% of their manufacturing overseas, there would be less concern as America's consumers would have a choice between either the American made or foreign made version of the product. However, the way it stands now, **many businesses simply closed their U.S.A. facilities and moved them overseas** with the idea that the American people would remain their faithful customers.

The Blichasz Plan

As we move forward with our efforts to support American workers, **I encourage you to contact your local, state and federal officials so the message of American Workers Need You is received** by a growing number of people. To help spread the word, I have placed a special link "[The Blichasz Plan](#)" on the front page of [AmericanWorkersRadio.com](#) and [AmericanWorkersNeedYou.com](#). You can print it out or email it to elected officials, your family and friends and the stores where you shop. **The more people that get the message, the more incentives there will be to help businesses presently operating in the U.S.A. The bottom line is we need more JOBS in America!**

As you go out shopping **spend more of your dollars in support of the products and services provided by American workers. Our efforts have already made a major difference** in the way Americans are thinking and shopping, but we still have a long way to go.

This is Michael Blichasz. Email me your suggestions from the link located on: [AmericanWorkersNeedYou.com](#). Every Wednesday at 11 A.M. tune in to **American Workers Radio** on 860 AM broadcast in Philadelphia and the Tri-state area. There is a listen live and rebroadcast link located on the front page of: [AmericanWorkersRadio.com](#).
