The Voice of America's Consumers and Taxpayers!

As we continue our **Buy American Made – Support American Workers Campaigns** we see a growing number of our fellow Americans going out of their way to **promote American Made Products and Services.**

For many years it has been evident that our leaders in Washington, DC, Big Banks, Investment Firms and the businesses that left America get their power and profits every time America's consumers make a purchase. **Washington collects taxes, big banks and investors receive a return on investments, and the businesses that left America see that offering imported items from around the world was accepted by America's consumers for over 30 years.**

As more **Buy American Made Supporters** speak up there continues to be a growing number of businesses looking to expand production and distribution of the products in the United States. Unfortunately, **we saw major amounts of items invented and made in the United States for over 100 years**, now being made outside of America and shipped to America to be sold. Fortunately however, we are seeing some positive changes happening to change the past as supporters of the **Buy American Made Campaign** take action with their dollars choosing to **spend more on American Made instead of supporting foreign producers.**

One important thing happening is more businesses are labeling their products "**Made in the U.S.A.**" These labels are a great way to remind shoppers to seek out **Made in the U.S.A. and look at labels before making a purchase** to see if there is an American version of the products available.

We appreciate everyone's support for efforts like **National Small Business Weekend, the First Friday, Saturday and Sunday of every month**. This effort is helping local businesses maintain their presence in America's communities and with all of us looking out for one-another, more positive things continue to happen.

Thanks for your participation. Kindly spread the word. Email me your comments and suggestions to: Michael@AmericanWorkersRadio.com.

This is Michael Blichasz. Every Wednesday from 11 A.M. to 12 noon, tune in to **American Workers Radio on 860 AM** serving Philadelphia and the Tri-State area. You can also listen live or to rebroadcasts from anywhere in the world from the easy access links located on the front page of: AmericanWorkersRadio.com.
