Help Us Support the American Made Label!

With so many changes taking place in the United States it is very important for us to spread the message that **American workers need us to support the American Made Label**. They also need us to **spread the word** about the **Buy American Made Campaign** to family and friends. **Here are a few ways you can help our efforts:**

- 1. Actively seek out American made products** so America's consumers create a demand for the products presently being made in the United States of America.
- 2. Spend more of your hard-earned dollars on products made in the U.S.A.** which allows small, medium and large companies, non-union and union and the self-employed, to keep their jobs and circulate more American money in America's economy.
- 3. Let everyone know that in the process of buying American made, WE are helping maintain** a more reasonable balance between imported and American made items presently being sold in America

All of our supporters want working age and able bodied Americans to have more access to full and part time jobs. One important way to make this goal a reality is to **support American Made Products and your local businesses** who have the ability to feature more American made products now and in the future.

Your words, actions and spending habits mean more than you realize. Spread the word because America needs us working together to restore jobs and our nation's economy. Thanks for your participation.
