## Look For the American Made Label!

Thanks to everyone that lets us know that they are looking for the **American Made Label**. With so many ongoing changes taking place in the United States, it is very important for us to spread the message that American workers need us to support the American Made Label and the businesses that are employing American workers.

Here are a few positive ways you can help:

1. Actively seek out American made products so America's consumers create a demand for the products presently being made in the United States of America. Your business helps keep the American Made Label alive.
2. Spend as much of your hard-earned dollars on products that you know are helping small, medium and large companies, non-union and union and the self-employed, to keep their jobs and circulate more American earned money in America's economy.
3. Let everyone know that every time WE support American made, WE are helping maintain a more reasonable balance between imported and American made items presently being sold in the United States.

With all of us focused on American made, more working age and able bodied Americans can keep their full and part time jobs. **One important way to make this goal a reality is to go out of your way to support all businesses that offer American made products to their customers.** Your words, actions and spending habits mean more than you realize. Spread the word because America needs us working together to restore jobs and our nation's economy.

Thanks for your participation. I welcome your comments and suggestions. Email them to: [Michael@AmericanWorkersRadio.com](mailto:Michael@AmericanWorkersRadio.com).
