[Audio Message](#) 

Help Us Promote a Positive Result!

Our campaign has always discussed ways to **support jobs of every type in the United States of America** and improve the economy of the nation where we live and want all Americans to thrive.

One issue often discussed on "[American Workers Radio](#)" is the need to **focus more of our tax dollars on educating America's high school students with a quality education that includes reading, math, history and also a major focus on at least one job skill upon graduation.** A job skill upon graduation would allow every student to support themselves and thrive. Offering students a **diverse education that provides Trade and Technology training in High Schools** needs to be addressed now as **School Boards are working to complete budgets for the upcoming school year** and for future school years. Let them know, as a taxpayer, you feel every high school student needs to graduate with a resume that lists what job skills they learned while in high school.

As you speak with family and friends, invite them to also call local high schools to encourage more Trade and Technology classes. Quite frankly, **when America was the country of inventors, America's schools focused more on preparing students for every aspect of employment, from research and development, high tech manufacturing, to sales and management.** Because America needs **graduates ready and able to enter the workforce, contact your local School Board and local Elected leaders and let them know graduates need job skills in addition to a general high school diploma.**

Thanks for supporting our efforts. **Kindly spread our message to your family and friends so businesses continue to grow and more Americans are able to be employed.**

This is Michael Blichasz. Every Wednesday from 11 A.M. to 12 noon, tune in to **American Workers Radio on 860 AM** serving Philadelphia and the Tri-State area. You can also listen live or to rebroadcasts from anywhere in the world from the easy access links located on the front page of: AmericanWorkersRadio.com.
