America Needs Our Support!

We are all watching many difficult situations taking place in America and around the world. Much of the difficulties are out of our control, but **as AMERICA's CONSUMERS, we can control how we spend our money** and focus on the goal to help American workers.

The efforts of the **Buy American Made Campaign** have been supporting those who manufacture, distribute and sell products made in the United States. If America's leaders paid attention to the imbalance between foreign made and American made products getting out of control during the last 30 years, they would have noticed the loss of American jobs and less tax revenues because more products formerly made in America were being produced overseas. **If America's leaders noticed the growing dependence of many working age and able-bodied people in need of government assistance programs because so many jobs were being outsourced to foreign countries.**

If we the American people saw that we need to reclaim America's economy, **there is no doubt that America's national leaders did not see how the loss of jobs was affecting America's economy, its families and America's tax base.** It's time for all political parties to work together, and ensure that America is the best place to do business, and in the process address inflation so that American Made products we purchased are more affordable.

Contact Your Elected
Officials Here:

You are asked to contact your national and local elected officials this week and let them know we don't have any more time to waste.

America and American workers need everyone working together to help restore industries and jobs here in the United States. There is a link on the front page of AmericanWorkersRadio.com entitled "**Contact Your Elected Officials.**" It lists their names, and contact information for national and local elected officials. Your participation is very important.

We welcome your comments and suggestions. Email them to
