## **Jobs and Dollars For America and Americans!**

Every day I see some positive results for **America's economy** as the American people spread the word and become more united behind the **Buy American Made Campaign**. Quite frankly the majority of our difficulties are a result of **America's national elected leaders' failure to properly address the loss of jobs and they were being lost to outsourcing**. Now as a result of poor leadership, **24 million Americans need a job and America is 15 TRILLION dollars in debt**.

As we listen to candidates seeking our votes they continue to speak about **more jobs for the American people**, but, exactly **what type of jobs are they talking about? Until the JOBS issue is resolved, millions of Americans will remain unemployed and America's 15 Trillion dollar debt will continue to rise**.

I would also like to see every candidate seeking our votes to outline their **thoughts as to WHY businesses and jobs left America** and offer their **plans in writing** on ways they will get job creators together from local, state and national businesses to create and maintain jobs in the U.S.A.

When I promote the **Buy American Made Campaign** and invite you to visit [AmericanWorkersNeedYou.com](http://AmericanWorkersNeedYou.com) or listen to **American Workers Radio**, I'm making suggestions and urging you to support the jobs we have in the U.S.A. However, our **national elected officials** are the ones that **need to authorize long-term NATIONAL tax incentives and other benefits that will welcome more industries to America's shores so they can make a profit and employ American workers**. By pressing government officials to reduce taxes and regulations on private sector businesses, we will help insure that businesses in the U.S.A. can be profitable after paying production and operational costs, insurance and the day-to-day expenses of doing business in America.

Spread the word and **buy more American made products this week than you did the week before**, and help circulate more of our dollars in the U.S.A.

This is Michael Blichasz. I welcome your comments and suggestions. My email link is on the front page of: [AmericanWorkersNeedYou.com](http://AmericanWorkersNeedYou.com). Be sure to listen to our live broadcasts on the radio or rebroadcasts from: [AmericanWorkersRadio.com](http://AmericanWorkersRadio.com).
