It's Great to See the Wave of Change in America!

If you are among the millions of people supporting the **Buy American Made Campaign**, you can feel good about being part of the positive "**Wave of Change in America**." Just a few years ago people were not concerned about the effects of outsourcing on America's industries. Many people thought the service oriented economy would grow and sustain America forever so they dismissed concerns about industries and jobs being lost in the U.S.A.

Today, people see things differently. **Now, because so many people have been speaking up where they shop, we are hearing that the concerns of AMERICANS are being discussed in corporate board rooms, at organization meetings, on television and radio programs, and in the print media.**

The **Buy American Made Campaign** is not meant to be just a lot of talk, it is meant to get people to speak up where they shop and make sure that business owners and purchasing agents see for themselves that customers are bringing about a **Wave of Change in America** with the main objective of restoring jobs for the American people and creating more **Made in America labels**. **Your efforts continue to show business investors that featuring products made in the U.S.A. will not only ensure their profits and stability, but will employ people who are also their customers.**

Read
The
Labels

When you shop remember that items with a "**Made in America label**" are clear evidence that Americans were employed from the point of production to the point of sale. When the label identifies an item as foreign made, that means mainly sales, shipping and handling personnel are being employed. If industries in the U.S.A. could **restore a 50-50 balance between American and foreign made** in every store possible, you will see an unbelievable change in job opportunities and in America's over -all economy. It's going to take all of us speaking up and using our spending power in **support of America's businesses and American workers FIRST**.

Best wishes to you and yours for an enjoyable summer.

This is Michael Blichasz. **Every Wednesday from 11 A.M. to 12 noon**, tune in to American Workers Radio on **860 AM** serving Philadelphia and the Tri-State area.
