Help Us Help Our Fellow Americans!

For over 25 years, we heard reasons why businesses and jobs were leaving the United States. Today, **it's more important for us to focus on our future so we don't repeat our past mistakes!**

We all saw for ourselves how difficult it has been for American workers as **many industries and businesses closed due to the coronavirus** that originated in China and caused months of heartache for all Americans.

Not only did companies lose business, but 40 million American workers lost their jobs. The slowdown caused by the coronavirus, affected jobs and job skills and the loss of income for a large portion of America's population. As a result of the coronavirus we are also seeing a growing number of For Sale and For Rent signs, which we hope will change as the business climate changes and jobs can be restored.

In order to change our situation, I urge you to be a voice for the **Buy American Made Campaign by speaking up EVERYWHERE you shop and focus your spending power on products presently being made in the U.S.A.** As Americans we don't want to lose another business, another employer, or see another person unemployed because imported products were permitted to replace American-made products from the industries that decided to move overseas.

As Americans, we can take control of our future by creating a demand for American made products of every type so that America's businesses see the benefit of restoring and expanding manufacturing in the U.S.A. **As we create a demand for more American made products, empty buildings will come alive with new industries and employment opportunities**

Thanks for your participation.

This is Michael Blichasz. I appreciate hearing from you. **My email address is:** Michael@AmericanWorkersRadio.com. Every Wednesday from 11 A.M. to 12 noon, tune in to American Workers Radio on 860 AM serving Philadelphia and the Tri-State area.
