Good News For All of Us!

It is GREAT to hear the reports that **NEW JOB Creation is taking place in the United States** in every sector of America's economy. That's great news for every American.

Today **MANUFACTURING is growing in the United States and fewer American inventions are being produced in foreign countries.** With a growing manufacturing base in the United States, we see **many levels of JOBS being expanded and created.** They include: research and development of NEW products that will not only be invented in the United States, but made in the United States, instead of being shipped to America from manufacturing sites abroad.

Help Restore America's Industries
BUY AMERICAN

Once again, more American manufacturing plants are ordering raw materials, producing merchandise, packaging and shipping products, and conducting advertising and sales activities all right here in the United States. **Restoring manufacturing means an increase in many levels of jobs for American workers.**

The focus of the **Buy American Made Campaign** is to get our supporters, their families, friends and neighbors to circulate more of their dollars on products and services that employ American workers and support the businesses located in the United States of America. Our goal is to restore the Made in the U.S.A. Label so American workers can be paid for a job well done and more jobs continue to be created.

Thanks for your participation. Kindly spread the word. This is Michael Blichasz. I appreciate hearing from you. My email address is: Michael@AmericanWorkersRadio.com. Every Wednesday from 11 A.M. to 12 noon, tune in to [American Workers Radio](#) on **860 AM** serving Philadelphia and the Tri-State area. You can also listen live or to rebroadcasts from anywhere in the world from the easy access links located on the front page of: AmericanWorkersRadio.com.
