Positive Networking Helps Our Cause!

There continues to be a growing positive response to our efforts to **promote the cause of American Workers and the businesses that employ them**. As I speak with business owners, they inform me that America's merchandisers are often heavily invested in manufacturing facilities in foreign countries so it is in their best interest to feature foreign made items as opposed to items **made in the U.S.A.**

**YOUR
PURCHASING HABITS
ARE BEING NOTICED
BUY AMERICAN MADE**

On a positive note, **as the American people speak up and are directing more of their dollars in support of American made products, our concerns and purchasing habits are being noticed in board rooms and by corporate investors**. Business leaders see that unemployed Americans are unable to spend money regardless where products are made, so **increasing production in the U.S.A. will both employ more Americans and increase the purchasing power of their American customers**.

The recession and the efforts of the **Buy American Made Campaign** have increased Americans' understanding of how detrimental outsourcing industries and the loss of jobs has been to every American. **We must remain united as America's consumers so "Positive Networking Helps Our Cause"**. Every opportunity you have, **spread the word about where American made product are sold** so we can help industries maintain and expand their product lines here in the U.S.A.

This is Michael Blichasz. Join me and my guests every Wednesday at 11 A.M. for another edition of **American Workers Radio on 860 AM** broadcasting in the Philadelphia area. You can email me from the link located on the front page of AmericanWorkersNeedYou.com.
