Supporters Are Making Positive Results Happen!

After promoting the **Buy American Made Campaign** for many years, **supporters see the Positive Results Happening for both American workers and America's economy.** Our focus on supporting businesses that employ American workers has helped unite **tens-of-millions of Americans who want more job opportunities** for people right now and the creation of additional jobs for America's future graduates. **We are now seeking:**

1. **Businesses are looking for opportunities to expand their product lines in the United States. Many businesses are now planning to relocate in America which will increase products with "made in the U.S.A." labels.**
2. **Business leaders, school boards and parents have made it known that it is imperative that more schools offer Trade and Industrial Art programs to junior and senior high school students.**
3. **Job training programs for working age and able-bodied people have been increasing. This will help provide the skills needed to expand America's industries.**
4. **A growing number of businesses are promoting on their labels and packaging that their products are made or assembled in the United States of America.**

The best way to see even more accomplishments happen is to promote the **Buy American Made Campaign** and **look and ask for American made products** so products move off store shelves and more American workers are employed replacing the products you purchased.

Thanks for spreading the word and for sharing the **Buy American Made message** with your family members and friends. This is Michael Blichasz. Every Wednesday from 11 A.M. to 12 noon, tune in to **American Workers Radio on 860 AM serving Philadelphia and the Tri-State area.** You can also listen live or to rebroadcasts from anywhere in the world from the easy access links located on the front page of: AmericanWorkersRadio.com.
