America and Americans are OUR First Obligation!

The main goal of the **Buy American Made Campaign** has been employment opportunities for **Americans FIRST**, and our efforts now have Americans discussing their ideas, concerns and experiences with their families and friends, which has more people speaking up in support of American workers.

As positive changes continue to take place in the United States, everyone is asked to support the businesses operating in America, from the corner store, to the local malls and on the Internet, especially where American made products are for sale.

With modern technology there are many new ways to make products and employ people, and with new products constantly being invented and improved, **there is no reason for any American to be without one or more employment opportunities.**

The goal of [American Workers Radio](#) is to encourage industries, businesses, academia, government and individuals to work together to restore the jobs lost to globalization over the past 30 years. The dismantling and exodus of America's industries took place over a 30 year period so it's not going to take a year or two to restore the production of competitive items most often purchased by America's consumers. HOWEVER, with the help of **Buy American Made Campaign** supporters, tax cuts and reduction of regulations on businesses **we have been making major progress.**

The **FIRST** weekend of every month is [National Small Business Weekend](#). Kindly go out and support your local businesses. For more information about this effort, visit NationalSmallBusinessWeekend.com.

Thanks for spreading the word to your family and friends.
