The Marketplace Determines What is SOLD in America!

**Buy More American
Made Items!**

Every shopper knows that "the marketplace determines what is sold in America". Today, cash register technology provides immediate reports to business owners of what's being sold and what is not. If an item is being purchased, it's replaced. If it's NOT purchased, the store will focus on items that are being sold. By seeking out and buying the American made items you need, you are helping determine what is stocked at the stores where you shop.

The entire American Workers Need You effort is directed to ensure that more American made items are circulated in our stores and reduce the massive build-up of foreign items that have filled our stores for too long.

The message of the Buy American Made Campaign is very basic. If we want to get more American workers back to work and more American made products sold in the U.S.A., we have to direct our purchasing power to support the private sector businesses that are employing many levels of America's workers. When we reach the 50/50 balance between foreign and American made items sold in the U.S.A. we will see many positive changes in the American way of life. Without JOBS we can't move our economy and future forward, so your participation is very important.

This is Michael Blichasz. Every Wednesday from 11 A.M. to 12 noon tune in to American Workers Radio broadcasting on 860 AM serving the Philadelphia and tri-state area. You can also listen live or to our rebroadcasts from the front page links on our Internet site: AmericanWorkersRadio.com.
