## Help Allow America to Benefit More!

As time moves forward more Americans are shopping with the intention of looking at labels and asking the question "**For the price I'm paying, why can't these items be available from American based businesses with American made labels?**"

One of the major difficulties that makes restoring industries in America more difficult is that business owners and investors found that having products **produced outside the U.S.A.** earned **huge profits** as opposed to manufacturing in the U.S.A. **As consumers take the time to look at labels** and are being more selective in how they spend their dollars, **business owners are seeing more foreign made inventory sitting on store shelves.** Holding out for American made has shown store owners that America's consumers want a **wider selection** of American made products. **However, getting private sector businesses to expand and relocate in the U.S.A. requires actions that can only be addressed by America's national elected leaders.** The main issues are **reducing taxes on private sector businesses** and unnecessary government regulations that encourage businesses to leave America. Once these issues are addressed, American based businesses can be more competitive with foreign made products and there will be **fewer reasons for businesses to leave the U.S.A.** and more reasons for them return to America's shores.

foreign made labels.

People tell me if there was an **EQUAL balance between domestic and imported products**, we could better appreciate a global economy. **However, we have reached a point where 90% of the products formerly made in the U.S.A. are now on sale in America with**

With the rising cost of food, energy, insurance and dozens of other basic living expenses, **Americans NEED tens of millions of additional job opportunities.** Help us expand the **Buy American Made Campaign** and reverse the **outsourcing trend by supporting the items made and assembled in America by spending your dollars wisely as you look for, ask for, and purchase American made FIRST.**

**If you can't find what you are looking for in one store, shop around and in the process spread the word about the Buy American Made Campaign. Thanks for your participation.**

This is Michael Blichasz. Every Wednesday from 11 A.M. to 12 noon, tune in to **American Workers Radio** on 860 AM serving Philadelphia and the Tri-State area. You can also listen live or to rebroadcasts from anywhere in the world from the easy access links located on the front page of: [AmericanWorkersRadio.com](http://AmericanWorkersRadio.com)
