For All of US and Future Generations!

For many years we have been living in a **fast-moving and ever-changing world** and it has been hard to stay focused on what was happening around us. However, with the major downturn we experienced during the last 6 months due to the coronavirus pandemic, Americans have had time to take a closer look at efforts like the **Buy American Made Campaign**. **They see our campaign promotes the businesses and jobs of our fellow Americans, and where Americans will be if we don't look out for America and American workers FIRST.**

After 35 years of settling for the majority of the products sold in America's stores being foreign goods, America's consumers are helping our efforts to restore at least a **50/50 balance** between foreign and American made products in the stores where we shop. **If we continue to seek out American made FIRST we will see more products available where we shop that**

represent products made in the United States because businesses want to offer what their customers are purchasing. Right now we can be proud to purchase AMERICAN MADE because we know that products with **Made in the U.S.A. labels are helping to keep our fellow Americans employed and able to support themselves.**

The growing practice of customers **reading labels before making a purchase has been sending a clear message to store owners that it's good business to invest more in American made products.** None of us thought so many of America's businesses would be forced to close or downsize during the height of the coronavirus spread in the United States. As we work toward getting things back to normal, **let's do everything possible to help American workers get back to their jobs making, distributing and selling items made in the United States of America. Kindly spread the word.**

This is Michael Blichasz. I appreciate hearing from you. My email address is:

Michael@AmericanWorkersRadio.com. Every Wednesday from 11 A.M. to 12 noon, tune in to American Workers Radio on 860 AM serving Philadelphia and the Tri-State area. You can also listen live or to rebroadcasts from anywhere in the world from the easy access links located on the front page of: AmericanWorkersRadio.com
