Debt Approved by National Leaders, Not Us!

With fewer businesses offering fewer jobs, there are less tax dollars available to run the United States government, so **national politicians continue to borrow 40 cents of every dollar** spent on government operations. This simply cannot continue, and **it is unreasonable for America's taxpayers to continue to be held responsible for expenses they did not approve.** America's leaders were sent to Washington to work for the well-being of America's taxpayers, not to approve **expenses that place generations of Americans \$16 TRILLION in debt** for out-of-control programs and services.

In my discussions with supporters of **American Workers Need You**, I have learned that people feel **there should be a referendum on all government expenses** to end **irresponsible spending of our tax dollars.** Elected officials should hold town meetings on budget items requested for local, state or federal government services. After a public review of the budget items, **voters can then decide with a YES or NO VOTE which expenses should be approved** during the November election. This would permit voters to be more directly involved in how tax dollars are appropriated for federal, state and local services.

We need to change the way things are done because we are now at the point that **America's children are at risk simply for being born in the U.S.A. and America's taxpayers of all generations are burdened with national debt that will follow them to the grave.**

On **November 6th**, a **very important election** takes place in the U.S.A. Americans will elect a President, members of the U.S. House and Senate, and numerous state level officials. At this point we have seen and heard the political ads, debates and posters. Decision time is here and **I urge you to go out and VOTE. No matter what happens on election day, our efforts to support the expansion of private sector businesses and JOBS for the American people must move forward full steam ahead.**
