## A New Year and New Opportunities!

2019 is going to be a good year for American workers because the American people are strongly UNITED behind the **Buy American Made Campaign** and efforts to support the businesses providing JOBS and Job Skills for American workers.

Happy New Year!  
Make Buying American  
a Priority in 2019!

During 2019, we will work even harder to encourage Americans to support all levels of the American Made movement and urge American based businesses to expand more of their product lines in the United States. This will allow American workers to compete

with the large amount of products imported from nations around the world and make a positive impact on America's economy. Our goal is not to discourage international trade but restore **no less than a 50-50 balance** between what is made in America and what is being imported to be sold in America.

All of the good realized during the last few years will continue if WE look for, ask for, and purchase items made and assembled in America. As this trend continues, we will see even more positive changes in employment opportunities, from A to Z, and **more products with labels proudly listing them as made in the United States of America.**

Let's work together to make 2019 a great year for America and American workers.

Thanks for your participation and for spreading the word. Best wishes to you and yours for a **Happy, Healthy and Prosperous New Year!**
