## Another Way To Spread The Word!

In the last few months, I have been promoting [AmericanWorkersRadio.com](http://AmericanWorkersRadio.com), an effort to unite the American people to support American workers and American made products.

Through radio and Internet broadcasts, **American Workers Radio** will outreach to listeners and **welcome the ideas of listeners on ways to support one another** so we can make a positive difference for the private sector businesses **manufacturing and employing Americans** from the point of production to the point of sale.

Since the recession began in late 2007, the American people have seen how the **loss of several million jobs to outsourcing** has affected the well-being of America. Today, **large percentages of what is being sold in America is foreign made** and the American people see the importance of working together to **reverse this trend**.

While we welcome competitive products from around the world, we also have to maintain a healthy level of **employment opportunities for Americans now and in the future**.

The **Buy American Made Campaign** urges you to **seek out the made in U.S.A. label** and direct your purchasing power in **support of America's industries** that are **both manufacturing and selling products made in the U.S.A.** **American Workers Radio** is another voice to help make our effort a success.

I encourage you to add [AmericanWorkersRadio.com](http://AmericanWorkersRadio.com) to your Internet favorites, email us your suggestions and spread the word to others because **American Workers Need Your participation**.
