## More American Made Items Needed!

Our efforts to promote the **Buy American Made Campaign** has gained the support of more elected officials, business and community leaders and media outlets who are **discussing JOBS for Americans**, because they see that **without jobs our economy will continue to struggle**.

During the prolonged recession it has been well noted that our situation will not correct itself. Therefore, **it is important that we NOT focus on excuses** as to why America's economy is flat, but **work toward positive ways to improve our future and employment base**. The road to recovery is not going to happen overnight so **our efforts to influence business owners and investors to expand and restore jobs in the U.S.A. is best accomplished with the participation** of as many people as possible. By using the **"look at labels formula"** and directing our purchases accordingly, we can **continue to influence business owners** and, at the same time, **keep more of our money circulating in the U.S.A.** by replacing the items we purchase for ourselves, our homes and our families with **American made goods**, which will in turn **employ more Americans**.

My goal through **radio, Internet and newspaper** commentaries are to **promote every way possible to unite the American people and GET AMERICA'S ECONOMY MOVING AGAIN**. Your involvement has helped keep the **Buy American made issues** on the minds of a growing number of people and I urge you to **get more people involved**.

We will continue to discuss ways to **help America's economy on American Workers Radio**. I invite you to listen to the rebroadcasts which are posted on the front page of [AmericanWorkersRadio.com](http://AmericanWorkersRadio.com).

This is Michael Blichasz. Email me your comments and suggestions from the link located on the front page of [AmericanWorkersNeedYou.com](http://AmericanWorkersNeedYou.com).
