Restating Our Goals!

Over the last few years we have made some significant progress by uniting behind the Buy American Made Campaign.

As you see family members and friends during the summer season, urge them to support the five points outlined in the Buy American Made Campaign:

1. Seek out American made products so we can increase the demand for the products still made in the U.S.A.
2. Buying American Made products helps keep more jobs presently held by Americans.
3. When you buy American Made, you are helping expand employment opportunities as businesses see a demand for products made in the U.S.A.
4. Support small and large companies, union and non-union, and the self-employed, so we can keep more jobs and money in America and help revitalize America's economy.
5. In the process of buying American made, we are helping maintain a more reasonable balance between imported and American made items in stores across the U.S.A.

If all of us stay united behind these goals, positive changes will continue to happen. To help move our efforts forward spread the word to your family and friends and spend your dollars wisely on American made products **FIRST**.

This is Michael Blichasz and I welcome your comments and suggestions. Email me from the front page of: AmericanWorkersNeedYou.com where you can read and print out a copy of my commentaries and email them to others.
