Our Efforts ARE Making a Difference!

The growing support for the **Buy American Made Campaign** has helped unite a growing number of **Americans**. As you see your family members and friends, **urge them to join our efforts** and support the five points that are the foundation of the **Buy American Made Campaign**:

- 1. Seeking out American made products increases the demand for items produced, assembled and sold in the U.S.A.**
- 2. Buying American Made products helps keep the jobs presently held by American workers.**
- 3. Buying American Made helps expand employment opportunities as businesses see a demand for products made in the U.S.A.**
- 4. Support small and large companies, union and non-union, and the self-employed, so we can keep more jobs and more of our money in America to help revitalize America's economy.**
- 5. In the process of buying American made, we are helping maintain a more reasonable balance between imported and American made items in stores across the U.S.A.**

I want you to know that **OUR EFFORTS** are making a difference. I encourage you to **welcome everyone to unite behind these goals so positive changes will continue to happen**. Discuss our goals with your family and friends and urge them to spend their dollars in support of **American made FIRST**. [Download and share our promotional flyer](#).
